

SEE Annual Conference

May 2023

Dear Society for Experiential Education Members:

SEE is excited for our 52nd annual conference – and first conference fully under the new banner of the Society for Experiential Education – in gorgeous Orlando, Florida this September! Our conference theme this year is ***Expanding Horizons: Inclusive Experiential Education for the Future of Work***, covering topics from study away, K-12 experiential education, meeting the needs of neurodivergent learners, and so much more from our amazing SEE member presenters! As usual, the conference schedule will include Roundtables and 60 Minute Sessions, but new this year will be the Lightning Rounds – a variation of the Pecha Kucha sessions from previous years – and Reflection Sessions to learn about reflection modalities from other institutions and apply them to what you are learning right there at the conference!

Our conference planning committee is also working on identifying awards winners, securing keynote speakers, and organizing excursions and dine-arounds, so stay tuned for updates! There's no need to wait, however, go ahead and register NOW to secure your spot in Experiential Education Academy Sessions and to let us know to see you in Orlando!

2023 SEE Conference Co-Chairs

Krystina Irvin, Texas A&M University-San Antonio

Doreen Grontkowski, University of Cincinnati
